CAREER OBJECTIVE

To secure a position where I can apply my skills and experiences in ICT support as an IT personnel , cashiering, and customer service while leveraging my competency as a professional driver. I aim to contribute to efficient technical operations, system support, and reliable transportation services within an organization that values versatility, discipline, and strong problem-solving abilities.

Experience

County Government of Kisumu
ICT Department.
(Short Contract)
Feb -Sept 2026

- Identified and resolved hardware, software, and network security issues.
- Supported network connectivity, troubleshooting, and infrastructure maintenance.
- Installed and maintained antivirus and endpoint protection solutions.
- Configured operating systems, applications, and system security settings.
- Conducted ICT equipment inspections and preventive maintenance.
- Identified system errors, technical risks, and connectivity vulnerabilities.
- Supported secure data handling and digital record management.
- Troubleshot network, DHCP, and internet connectivity incidents.
- Maintained ICT systems to ensure reliability and operational continuity.
- Provided technical support and guidance across multiple departments.
- Assisted with application testing, debugging, and system improvements.
- Documented technical issues, troubleshooting activities, and resolutions.

FOMA RESOURCES LIMITED
(GOLD MINES)
Kakamega
June 2024 - Feb 2026

Role 1: Supervisor

- Supervised gold mining and production operations.
- Oversaw Carbon-in-Pulp (CIP) processing and gold recovery.
- Ensured gold quality, accurate processing, and market readiness.
- Coordinated staff, equipment, and production schedules.
- Enforced mining safety and environmental standards.
- Monitored production targets and recovery efficiency.
- Ensured proper handling and storage of recovered gold.
- Prepared production reports and operational records.
- Supervised equipment maintenance and quality control.
- Improved operational efficiency and minimized wastage.

Role 2: Driver (B1/B2)

- Safely transported company staff, management, and visitors.
- Operated company vehicles in compliance with traffic regulations.
- Conducted routine vehicle inspections and reported mechanical defects.
- Maintained vehicle cleanliness and servicing schedules.
- Delivered company documents, equipment, and supplies.
- Maintained accurate vehicle logbooks and fuel records.
- Ensured timely transportation to and from mining sites.
- Adhered to mining-site safety procedures and PPE requirements.
- Observed site traffic rules, speed limits, and restricted-area regulations.
- Reported safety hazards, incidents, and unsafe conditions..
- Practised defensive driving and workplace safety standards.
